

Julia Benincosa Legg  
WV Department of Education (WVDE)  
State E-rate Coordinator

As an outspoken applicant advocate and State E-rate Coordinator for almost 14 years and the only state coordinator who files both Telecommunications and Internal Connections (C2) at the state consortia, I also assist 20 districts with their local E-rate applications and am a member of the WV Broadband Enhancement Council, Education Committee. My experiences in online learning K-12 and professional-graduate level courses afford me distinctive insight to the direction that USAC is headed for training and outreach. I have graduate degrees in both Educational Leadership and Educational Technology leadership. The related coursework and projects have been critical in developing the skills necessary to engage as a board member on behalf of applicants relating to both technical and leadership perspectives.

During my tenure in E-rate, I have built important relationships with the FCC staff, including:

- Jessica Rosenworcel, Commissioner, who played an integral role in the West Virginia Broadband Summit;
- Ryan Palmer, Division Chief, Telecommunications Access Policy Division (our former WV Public Service Commissioner);
- Lisa Hone, Associate Bureau Chief, Wireline Competition Bureau; and
- Trent Harkrader, Associate Bureau Chief.

At USAC I have strong relationships built with executive staff including Catriona Ayer, Leslie Frelow, Jeff Walsh, John Noran and many others.

In my role as the WV State E-rate Coordinator, I have also been in a position to affect programmatic change in the program, including permanent E-rate policy changes.

- Eligibility for telecommunications and Internal Connections (Category 2) in dormitories and housing for “special schools,” through my waiver request and work with former FCC staff, Gina Spade.
- Launch of the Schools Spots initiative, also the result of a waiver request I filed, permitting schools to utilize untapped broadband during off-hours.

I look forward to the opportunity to grow and expand within my current role and have the support of not only the WVDE, but also strong advocates in our Congressional staff, Shelley Moore Capito and Joe Manchin. I believe that I could bring to this position the energy, dedication, and strong work ethic it requires. I feel that my advocacy, experiences and skills afford a unique perspective that would best represent all school applicants. When I look at issues, I believe that one must look at the big picture, not just those that represent their own state’s interests. I have long held that belief in my time in the State E-rate Coordinators’ Alliance. My curriculum vita is attached for your review. Thank you for your consideration.

# CURRICULUM VITAE

## JULIA BENINCOSA LEGG

807 BASIL ROAD, CHARLESTON, WV 25314 | 304-767-8913 | JULIA.LEGG@K12.WV.US

**Technology Coordinator, Notre Dame High School, Clarksburg, WV** 1997-1998

## TEACHING EXPERIENCE

Van Horn Elementary, Salem, WV

**Computer Teacher, Library Media Specialist,  
 Network Administrator, County Technology Committee** 1999-2004

Local School LAN and Jostens/Compass Administrator

Presented staff development sessions in technology for Harrison County Schools

Selected to present at the West Virginia Reading Conference in December 2001 and 2003.

(High Technology Integration in Reading)

Managed school Library and Technology budgets; leveraged contract and other pricing with multiple vendors for technology purchases

Member of Title I and technology planning teams that utilized data disaggregation to determine school planning for technology to improve student achievement; wrote technology plan, assisted in writing School-wide Title I plan

Provided yearly copyright training and day-to-day support

Salem International University

**Adjunct Professor, Educational Technology Leadership Graduate Program** 2004-2005

Developed online coursework to serve students accessing coursework from other states and unable to attend "brick and mortar" sessions, as well as, blended delivery content for face-to-face courses.

Developed and instructed ISTE-based standards and content for EDU 540 and 542

(Tools for Technology Integration into the Curriculum) courses

Harrison County Schools Virtual School

**Virtual School Teacher, Business Computing** 2002-2004

Developed (in WYSIWYG and HTML) and instructed first online Computer Applications credit course of its kind in the state of West Virginia, instructing on Microsoft Office and Internet use based on SREB and West Virginia Content Standards

Developed online course standards for Computer Applications course

Enrolled students directly and through virtual school contacts

Communicated with parents regarding student progress and academic issues relating to online coursework

Developed online registration pages for all Harrison County Virtual Schools Courses

Developed online etiquette and chat policies for course

Lumberport Middle School, Lumberport, WV

**Library Media Specialist, Journalism Instructor, Technology Committee** 1998-1999

Advisor to Yearbook and Newspaper (published monthly)

Trained by Eagle Technologies (TCBC) in Server Management

Notre Dame High School, Clarksburg, WV

**Library Media Specialist, Reading 8, English 10, Technology Coordinator,  
 Tenth Grade Class Advisor** 1997-1998

Successful grant writing to establish school's first Internet connection.

Developed school's Acceptable Use Policy as Technology Coordinator

## RELATED EXPERIENCE

West Virginia Department of Education, Charleston, WV

**Instructional Technology, Technology Integration Specialist,  
State E-rate Coordinator & School Library Media Specialist Contact**

**2005-present**

Developed personal work plan to feed into division and department work plans

Provided statewide trainings and present at statewide conferences across department offices

Provide assistance in copyright law and filtering issues at the state level

Designed state-level database with programmer for administration of Tools for Schools and E-rate projects

Participated as a member on Office of Educational Performance Audit (OEPA) teams

Broadband Deployment

Member of WV State Broadband Council Education Subcommittee. Participated in brainstorming and presented opportunities for statewide broadband deployment.

Participated in National Telecommunications and Information Administration (NTIA) Broadband Technology Opportunities Program (BTOP) training and assisted in documentation for K12 for grant application. Later worked with counties in BTOP implementations with in order to leverage both E-rate and BTOP funding to advance telecommunications networks

Experience with Federal Enhancing Education Through Technology (EETT) regulations for technology planning and have previously worked with EETT program in grant evaluation process in Harrison County Schools

E-rate

E-rate support for state and local applications to include statewide network

Utilize and developed criteria for E-rate database construction; familiar with database development; utilized online database and developed online forms for data collection and registrations

Developed the Children's Internet Protection Act (CIPA) application for collection of required compliance data

Worked with Federal Communications Commission (FCC) and State E-rate Coordinators Alliance (SECA) to affect change at the federal programmatic level in the E-rate program through comment filings and direct communications

Engaged in waiver development to further the E-rate program for our schools in West Virginia – results included funding for dormitories at special schools like the WV School for the Deaf and Blind and permission for all schools nationwide to open their doors for community use. Proposed waiver to permit off-site use of Internet connectivity for the Kanawha County Schools Wi-Fi on the Bus Program (pending). Currently preparing to affect change in Federal Communications Commission (FCC) policy restricting community access to fiber projects.

Successful audit experience

Participated in E-rate Roundtables with Senator Rockefeller (Internet Safety) and the Universal Services Administrative Company (USAC) that administers E-rate for input on program improvement.

Member of USAC Vice President of Schools and Libraries "Kitchen Cabinet."

Library Media and Technology Integration Specialists (TIS)

Developed and maintained grant program to train library media specialists in technology integration.

TIS-Library Media training sessions including collaborative Google technologies

Planned and executed multiple conferences a year for trainings

Developed face-to-face professional development sessions, and online content for TIS cohorts within WVLEARNS platform based on WV Content Standards

Facilitated TIS-Library Media program including development of online professional learning communities within WVLEARNS, Google and Thinkfinity Community platforms

Owner of statewide Librarian Listserv—share tools and technologies that support learning, integration and Content Standards

Developed a Grant to Partner with Woodsdale Elementary, Model Information Media Center (TIS-Library Media Project)

Books on the Bus grant - worked with Office of Professional Preparation and other TIS coordinators to develop TIS credentialing requirements and documentation

Developed grant for ebooks and readers to be utilized on school buses during long commutes and during the school day in Career Technical Classrooms.

#### Procurement

Developed state mini-bid process for procurement on state master contract.

Co-developed mini-bid and contract management SharePoint tools.

Developed Internet Access and Networking, Enterprise & Technologies Request for Proposals and managed yearly contract renewals, resulting in millions in cost-savings for the state of West Virginia

Assisted in development of multiple statewide contracts including two Tools for Schools networking and device contracts, Data Circuit Multi-Protocol Label Switching (MPLS), Data Transport, and Voice over IP.

Assisted in development of local District contracts and utilization of state master contracts

Developed eReader pilot based on State Board Goals and Superintendent Priorities. Supervised initiative development among multiple offices (Special Education, Career Technical and Title I) along with development of professional development and rollout.

#### State Network

Collaborate for WV State K12 Network planning and funding. Familiar with 10. (local) and 168.216 (public) IP addressing systems.

Deep understanding of network schematics, technologies, budgetary and bandwidth needs for expansion each year.

#### State Policy Development

Developed and assisted in updates to State Board Policy 2460 (Acceptable Use, Technology and Copyright)

Involved in discussions of revisions of Policy 2520.17 (Library Media Educational Standards)

Provided input on Policy 8200 (School Finance)

Involved in discussions of revisions of Policy 6200

#### Technology Planning

Developed and maintained statewide District Technology Strategic Plan, including district training and support

Review technology plans for counties and assisted with updates

Harrison County Schools, Clarksburg, WV

**Professional Development Trainer**

**2002-2005**

Provided summer technology training to teachers county-wide.

Harrison County Schools

**Project S.A.F.E. Webmaster**

**2002-2004**

Developing web presence for public relations of Harrison County Schools' Project S.A.F.E.

Harrison County Federation of Teachers

**Webmaster**

**2002-2003**

Developing web presence for public relations of Harrison County division of American Federation of Teachers

## PROFESSIONAL DEVELOPMENT

Conferences, State

21<sup>st</sup> Century Skill Building Conferences (Fall, Winter, Spring, Summer-2006)
